

1. Hello Mr./ Mrs..... I am Nice to meet you too and I am very pleased to be here.
2. "I graduated in Computer Engineering two months ago. I chose that field of study because I've always been interested in new technology trends and software. One of my key accomplishments during my academic career was speaking at a conference on the topic of new technology strategies in the educational field. And also, I am such an open-minded and ambitious person that I attended many courses to practice my English and engineering skills. Now, I really want to work on a full-time position that is actively related to my skills and interest.
3. I really like how your company has constantly evolved from the start of the organisation. I find many things that are important to this company also important to me. In addition to developing successful and new programmes, you are at the forefront of both national and international success in customer relations. And I know that last week your company received an award at an event with very important participants. Congratulations!
4. I understand that this is a company on the rise. As far as I know, you're planning to launch two new software in the coming months. I want to be a part of this business as it grows, and I really want to work on programming and software that perfectly match with my professional skills and personality.
5. I graduated from university very recently but it is a good advantage for me since my learning outcomes are very fresh and new. So, I am a candidate who follows up new trends, refreshes herself/himself and works with passion in a teamwork. In addition, I am joining new language courses to broaden my language horizon. Thanks to this, I can represent your company at an international level.
6. I am really good at working within a team and at time management. I can handle difficult situations and stress because I am a very calm and cool person in any situation. Moreover, I am really keen on following new technology trends and developments, so I am very excited about following my passion and applying abilities to this position. . I am a kind of fast-learner and can work hard and learn more about each detail. I can say that I am a little perfectionist, finding ways to always do something better until I feel happy with it. Sometimes it makes me tired but also, I am able to complete any task or mission very meticulously.
7. Well, I am really excited by this position in your company because I would love to take part in software engineering department nationally. Furthermore, I am also interested in working with creative programmes and starting new products that are globally accepted. My top career goal is to become the manager of a production department.
8. Thank you very much. I have only a question that I want to ask. So, what plans do you have for your business over the next five to ten years?
9. That's fantastic. I am really excited about your future plans.
10. Thank you very much for your time and for interviewing me. I am very enthusiastic about working in your company. I am looking forward to hearing from you. Have a nice day.
